

## Elfkins and Elfkin houses

### How to make an Elfkin

1. With the help of an adult, cut sticks into 15 cm or 6-inch lengths and cut or sand away any sharp bits from the sides.
2. Cut a 45° angle on the top to make a face.
3. Rub the whole thing lightly with sandpaper to smooth the rough edges.
4. Using felt, scrap material, wool or cardboard use your imagination to decorate and make hats or cloaks for your Elfkin.
5. Draw on your Elfkin's face and give them a name.
6. In your house or garden make a magical kingdom for your Elfkin to live in.
